ROMANTICIST REVELS IN FOOD STATISTICS
Restaurant Like a Robber's Cave to Deliver Into Low Cost of Living
There was a characteristic reason why he did not consider taking her to a restaurant, and I wish to give it, since it was characteristic. He had made a study of foods and their prices, and was as careful as a scientist that he made subsequently into the details of life and local color for his romances of Elizabethan and medieval times, and he understood the ground the restaurant over-charged. He knew, for example, that rolled oats in bulk, cost him two and one-half cents a pound; that there were six teaspoonsful in a pound, and that half a teaspoonful made a portion for one meal. Cornmeal, at two cents a pound, gave only four cups to the pound; oatmeal, at two and a half cents a pound, the five cups to the pound, and so on, until, at five cents a pound, four cups to the pound. (These, of course, were the prices of 1893.) He paid fifty cents a pound for coffee; there were ninety-six teaspoonsful in a pound, and he used a teaspoonful to a cup of coffee, strongly. He paid fifty cents for a pound of tea, of 128 teaspoonsful. He had figured out that granulated sugar cost him one-eighth of a cent for a spoonful, and he used a spoonful to a cup of coffee, strongly. TEUTON NEWSPAPER DERIDES YANKEE AID
Koenigsche Zeitung Says the Less Noise They've Done the More Noise They've Made
The periodical Koenigsche Zeitung in an editorial on America's participation in the war says: "It is evident that the United States in entering in a position not willing to take active part in the war during the year 1918. America, however, means it seriously so far as the creation of a great army, navy and merchant marine is concerned. In order to accomplish this President Wilson has taken advantage of the great world war. Such an army, to be worth while, will have to be trained in the theater of war, and it is why American soldiers are being sent to France."

PROFITS OF KRUPPS MORE THAN DOUBLED

SNAP OF A SMILE
As further evidence that he proposes to turn out a "snappy outfit," General Nicholson has informed his officers that they must exercise greater care when saluting. While this may be considered by laymen as a minor detail, raising the army officer's standard, it is important for an officer to put real pep into his salute.

MODERN PATRIOTISM DEFICIENT IN TRUTH
Consists More in Hating Enemies Than in Loving Friends, Holds Magazine Writer
The patriotism which today reigns in the world is rather a negative thing; it consists more in hating enemies than in loving friends. It is a smoky, sticky, blinding fog that caps up every heroism and every usefulness. There is so much drama in the world that our sentiments grow dramatic, and we come to depend for our patriotic feelings upon the daily stimulus of newspaper, magazine, and hand. All that is ephemeral because it lacks essential.

The man came to a halt by a trench and was looking back and forth at the trench. The officers looked at him drunkenly, and one came up and pulled his beard and spat in the man's face, saying, "You old English swine." He then shouted out some instructions to the soldiers, and they led him out into the narrow trench.

It is claimed to have a number of advantages over ordinary celluloid for industrial uses, and as it can be produced much more cheaply, its manufacture at Tokyo is expected to provide important raw material for many common articles.—Nipponka state Journal.
